I am a skilled Dialysis Technician with 4+ years of experience in patient care, equipment operation, and managing dialysis treatments. I specialize in cannulation, troubleshooting machinery, and ensuring patient safety while adhering to infection control protocols. My focus is on optimizing treatment outcomes and providing efficient, high-quality care.

PROFESSIONAL EXPERIENCE

Diamond Hospital

Senior Dialysis Technician

Gujarat, India

October 2021–October 2024

- Lead technician responsible for overseeing dialysis procedures, guiding junior technicians, and ensuring adherence to strict aseptic protocols.
- Manage and coordinate dialysis schedules and resources, optimizing efficiency and minimizing patient wait times.
- Provide in-depth training and mentorship to new staff, fostering a collaborative and skilled dialysis team.
- Collaborate with nephrologists and nursing staff to design and implement individualized patient care plans, enhancing treatment outcomes and patient satisfaction.

Kidney Care Hospital

Dialysis Technician

Gujarat, India

October 2020–October 2021

- Performed routine and emergency dialysis procedures, strictly following infection prevention protocols.
- Assessed and monitored patients' vital signs and symptoms during treatment, responding swiftly to any complications.
- Implement quality improvement initiatives focused on patient safety, infection control, and procedure standardization.

EDUCATION
